

## **Press Release**

The Ministry of Foreign Affairs of Thailand will launch the online media accreditation website or MFA Media Online Service (MMOS) on Monday 16 August 2010.

The MMOS is a system developed by the Ministry of Foreign Affairs to streamline and expedite the online accreditation service for members of the foreign media intending to work or reside in Thailand as well as those wishing to renew their media accreditation to extend their visa, work permit and press card.

In this connection, all members of the foreign media applying for media accreditation to work or reside in Thailand as well as those who wish to renew their visa, work permit and press card from 16 August 2010 onwards will have to submit their application through the MMOS website. The "Guidance for foreign journalists who wish to work in Thailand" is available at <http://www.mfa.go.th/web/2676.php>.
